"Log Date: 09/17/19. It's been two weeks since the mix up happen... two weeks since people started dying left and right. Œęķëþý€£•% has been trying to fight it, but... I fear it's too late. I have to go, I have to get back to work."

"Log Date: 11/29/19. Less then half a million of people on earth is dead. Our work isn't made so much as a dent into it. I'm not a pessimist, but... I fear this is the end of humanity. I just hope we caught it early enough."

"Log Date: 1/28/20. I don't know what has gotten into the boss's head... it's like he's gone insane become of this. He hasn't slept in... God I don't know *how* long. It's getting to us... all of us..."

"Log Date: 3/24/20: Almost HALF of the human population is gone! HALF! I don't know what is making it kill so fast, but it's getting *soooo* much worse. I can't sleep. The whole building is on lock down. No one can leave... We haven't seen the sun in weeks now. This is the end, isn't it?"

"Log Date... I'm not even sure anymore. I can't tell time here, even my internal one is messing up... I don't know how many people are alive anymore. The numbers don't come in anymore... but knowing this disease, this pandemic, it's probably killed a majority of humanity. If you're hearing this... you're lucky."

"Get off of me! GET OFF OF ME!! STOP IT, PLEASE!!"

"They stormed in, they took all of our research away. They called themselves the Purificationers, claiming they haven't gotten sick because they have purified souls. Bunch of crazy people... now we have to start over... if those... Purified idiots have the guts to storm in here... I don't want to know what's happening outside of here."

"We found a cat today... he was hiding in the vents. I think he came

in when those thieves came, to look for food. We've call him Snowball for this little white splotch on his eye. My wife would love him... I wonder if she's still alive..."

"... Snowball... was contaminated... we- COUGH! COUGH! ACK!... we're all sick now... I estimate our death... soon then we all thought..."

"Jeffrey and Ethan are gone... so is Madison, Hannah, Penny, and, well, everyone else... it's just me and Scott left... you know... I never thought I'd die like this. I always thought it would be me on a bed surrounded by my loved ones... or maybe going out in the flames of glory... there's nothing glorious of dying to a disease you were supposed to cure ages ago..."

Pandemic | a Warrior Command Game

⚠ **Introduction** ⚠

Welcome to *'Pandemic'* a Warriors Command Game during an actual pandemic!

In an alternative world, COVID-19 never stuck. Something much, much worse did. Ebola escaped the Hot Zone after a mix up on vials, and afterwards, it never stopped moving.

Hundreds of millions of people died, but it didn't stop there. It mutated over and over, until it finally started to effect more and more wildlife.

Cats feel ill quickly, dying off just as fast as the humans. Clans fell one by one, until only a few Clans were left. StarClan tried to intervene, and looked to a Clan known for their healing.

AltheaClan.

With only 150 moons to find the cure, AltheaClan must make a choice: find the cure, or fall in the **pandemic**

AltheaClan is the Clan you will live in. It is known for it very talented Medicine Cats and it's unstoppable Warriors.

This game with be easy from the start, but will be harder as the moons go by. You will only have 150 moons to complete the game and its story. There are two endings, and what you do will determine the outcome.

~⚠~

The Disease

Bloodcough (Ebola) is going to be your biggest problem in this command game. It has a chance to infect a cat every 10 moons, and those cats will either need to be exiled or, if it is during a special 'StarClan Blessings' event, have a chance to be cure.

It will start off as: Fever, Cramped Muscles, to Trembling, to Coughing every moon. However, other sickness can get confused with it. During Leaf-Bare, you will have a chance to get a normal Fever, or Bloodcough Fever. Medicine Cats will need to use the special command */observe (cat name)* to see what the outcome will be.

If they are infected, the leader or Lead Medicine Cat will need to use the special command */quarantine (cat name)* or */exile/suggest exile (cat name)*

After three moons if the infected cat isn't quarantined or exiled, another cat will be infected.

Ranks

Ranks are mostly the same, except for a few things.

Leaders: the leader of the Clan (if infected) will lose two lives instead of one. They have complete power over the Clan. Tyrant leaders are welcomed.

Deputy: Deputies are the second in command, and important as well. They will take over for the leader if they die. Evil Deputies are welcomed as well.

Lead Medicine Cat: the head Medicine Cat that will go to the

Devine Skull every 5 moons. They have a small chance of gaining a piece of the cure, or receiving an important message.

Medicine Cats: they help heal any injured or sick cat. At the end of the game, if the cure is found, will need to use the special command */pass out cure to other Clans* this is pass out the cure to other Clans to help eradicate Bloodcough. If the cure isn't found, this will not be needed. If the Lead Medicine Cat dies, they will need to elect a new one.

Medicine Cat Apprentice: young cats who are learning to be Medicine Cats. Help with foraging for herbs and healing clanmates.

Warriors: cats who help keep the Clan together. They primarily hunt, patrol the border, and fight for the Clan. Some warriors can offer to help Medicine Cats with gathering herbs. Has a chance of becoming Deputy.

Apprentices: young cats who are learning to become warriors. They can offer to help the Medicine Cats or their apprentices. Lower skilled Apprentices will need help evacuating the camp during emergencies.

Queens: she-cats with or excepting kits. Mothers of the Clan. They will need help evacuating the camp during emergencies.

Kits: the future of the Clan. More likely to get Bloodcough thanks to weak immune systems. Will need help evacuating the camp during emergencies.

Events

Some events can be stopped by keeping the border strength up. Some events can't be stopped, like natural ones. Some events will be good.

Border related Events

Attacks: Numerous animals are growing desperate during the **pandemic,** and will fight for prey and territory. It can range from Rogues to Bears, to even Twolegs who are desperate for food.

Rogues travel in packs of 2-10 cats, from levels 1-7. They usually appear during Leaf-Bare or when the Border is down to or below 15. Can be captured and join the Clan.

Dogs travel in packs of 1-3, rarely 4-5. They can come in levels from 3-7. They appear more likely during Green-Leaf or when the Border is down to 12 or below. Babies can be pets.

Raccoons only tend to travel in trios or pairs, rarely alone. They can come in levels from 2-5. They appear more likely when the Border is down to 15 or below. They can be shooed away if they are spotted by a patrol. Babies can be pets.

Falcons will rarely ever travel in pairs, normally only attacking by themselves. They can come in levels of 5-6. They will appear more likely during New-Leaf to feed their chicks, or when the Border is 10 or below. Babies can be pets.

Snakes only come alone. They can be levels of 4-5 and can inflict poison onto a can. If not treat in a day, the cat will die. More likely to come out during Green-Leaf or when Border is 10 or below. Cannot be pets or shooed away.

Foxes can come in pairs, but rarely trios. Can can be levels of 3-5. More likely to come during New-Leaf to feed their kits, or when the Border is 12 or below. Cannot be pets, but can be shooed away by patrols.

Rats come in packs ranging from 4-10 and sometimes more. Can come in levels of 3-4. More likely to attack when the Border is 10 or below. Cannot be pets, or shooed away. Has a chance of carrying Bloodcough or cause infection.

Bears will only come by themselves and hardly ever in pairs. They come in levels of 5-7. They most likely attack during Leaf-Fall and New-Leaf or when the Border is 5 or below. Can be shooed away by a big enough patrol. Cannot be pets. Pass one is the third letter or number in your username.

Desperate Twolegs only come alone. They come in levels of 6-7 and have a chance of giving Bloodcough to a cat. They are more likely

to attack during Leaf-Bare searching for food. Incredibly dangerous to kits and apprentices if they aren't defeated. Cannot be pets or shooed away by patrol.

Natural Events

Thunderstorms: more commonly during New-Leaf and Green-Leaf. A chance of getting hit by lighting if you go out by yourself or in a small patrol. Those without a den have a chance of getting sick.

Rainstorms: more commonly during New-Leaf and Green-Leaf. Small chance of getting hit by lighting. Those without a den have a chance of getting sick.

Strong Winds: Have a chance of getting a Rainstorm or Thunderstorm next moon, or being a Hurricane or Tornado. Be careful when going out alone or in small groups.

Hurricane and Tornadoes: the Strong Winds have gotten worse and now one of these events are happening. Seek shelter! Be careful when going out alone or in small groups. Queens, Apprentices, and Kits will need help escaping.

Flooding: A flood has happened thanks to the Rainstorm/ Thunderstorm. Seek shelter! Be careful when going out alone or in small groups. Queens, Apprentices, and Kits will need help escaping. Second pass is to tag 3 people, if you feel nervous or anxious of this, name a bird.

Fire: A fire is blazing though the territory! Seek shelter! Queens, Apprentices, and Kits will need help escaping.

Random Events (Good and Bad)

Poisoned Prey Pile: The prey pile is contaminated with Bloodcough! Use the special command */throw away prey* to get rid of the prey. You will need to restock it the next moon.

Immunity: There is a very small chance of becoming immune to Bloodcough. It can be granted during a 'StarClan's Blessing' but it's very unlikely.

StarClan's Blessing: A very rare event where a StarClan cat can heal an infected cat, restore the Border, restock the prey pile, bless infertile couples kits, granted immunity, and more.

Bountiful Herbs: An event sometimes seen in New-Leaf, will give the Clan 5-20 herbs bonus. Has a small chance of having a piece of the cure.

Pets

Pets can help the Clan in multiple ways. Every time a new pet is discovered, a pet log will be put up to tell about the pet's pros and cons.

Already Found Pets

Raccoon

Raccoons help the Clan by catching harder to catch prey like birds, rats, and squirrels that ran up the trees! They also lower the chances of encountering snakes, as they are a predator. However, they slightly raise the chance of catching an infected prey piece.

More will be added later on!

"Wow, that was fast. Hello, hello, hello! Welcome to Sand and Gray's marketplace!" greeted the sandy, pale ginger tabby.

"Oh dear, we didn't think cats would show up this soon. Don't worry though, I already have our items up for everyone to see." Gray said, making her way over to their visitor.

The tabby looked over to his wife, a smile on his face as the two briefly shared a nuzzle.

"Thank you, my little ray of moonlight. Alright, what can we do you for, my kind clancat?"

Sign-Ups

By joining this, you have hereby put yourself in a fight for survival during a disastrous **pandemic** we, in real life, could have had.

If uneasy with this subject matter in any sort of way, please leave as there will be multiple occurrences of cats getting sick and dying.

You character WILL die somewhere along the game, which is why I'm allowing 2 characters. However, you must have one of each gender. If you have a tom, make a she-cat. We don't need the Clan over running with she-cats like a lot of others.

I will play as leader, but you all will be able to elect a Lead Medicine Cat and Deputy. I won't start off with all 9 lives, to let someone have it quicker and to add flavor to the game.

Role playing will be allowed, but keep things PG-13; not smut, no gory details of births or fighting of any sorts. Use cat curses only, and only hate the OC, not the user. Any bullying will result in you getting banned from the game.

Time for the forms!

⚠ Clan News ⚠

StarClan is allowing AltheaClan a small moment of grace to help them get back on their feet. They have gifted the Clan with 50 prey, 10 herbs, and 25 sticks as a small head start.

Snowstar is too hurt by the loss of her old Deputy to choose a new one. Choose a cat to elect for Deputy by using */elect (cat) for Deputy*. Whoever has the most votes wins. Please try to vote for cats who will be more active.

A new Lead Medicine Cat must be chosen. However, only the Medicine Cats and their Apprentices can vote. Use */elect (cat) for Lead Medicine Cat* it it is a tie between two, you will need to choose between them.

Make sure to use this Grace Period wisely by training your skills, hunting, foraging, or bonding. The Border will not go down during this time.

Sunpaw, Snakepaw, Owlpaw, Crashpaw, and ***Cliffpaw*** will be mentored by ***Cherrychaser, Devilfear, Ravenclaw, Strikingpetal,*** and ***Snowowl*** respectively

Kestralpaw and ***Cloudpaw*** will be mentored by ***Angeldream*** and

⚠ **Clan News** ⚠

StarClan is allowing AltheaClan a small moment of grace to help them get back on their feet.

Make sure to use this Grace Period wisely by training your skills, hunting, foraging, or bonding. The Border will not go down during this time.

Since De is an idiot and forgot a few cats, she now presents ***Rookeye*** and ***Fallenpaw.***

Fallenpaw will be mentored by ***Ivytail***

Cherrychaser was chosen for Deputy!

Angeldream was chosen for Lead Medicine Cat!

Ravenclaw maxed out his Battleskills!

Yesterday, ***Rainstrike*** went looking for a pet. She returned with a small baby **raccoon!**

- Pet Log Update! -

Raccoons help the Clan by catching harder to catch prey like birds, rats, and squirrels that ran up the trees! They also lower the chances of encountering snakes, as they are a predator. However,

they slightly raise the chance of catching an infected prey piece.

May StarClan have mercy on you all

StarClan is allowing AltheaClan a small moment of grace to help them get back on their feet.

Make sure to use the last day of the Grace Period wisely by training your skills, hunting, foraging, or bonding. The Border will not go down during this time.

Sunpaw and ***Kestralpaw*** are old enough to rank up! Use the command */rankup to... (new name)*

Until A_Loyal_Banana returns, someone can play as their cats.

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

A **cure piece** was found yesterday!

Yesterday, ***Sootfeather*** went looking for a pet. She returned with a small baby **bunny!**

Yesterday, ***Strikingpetal*** went looking for a pet. She returned with a baby **flacon!**

Yesterday, ***Waspfrost*** went looking for a pet. She returned with nothing, sadly. Maybe next time!

Yesterday, ***Whisperspark*** went looking for a pet. They returned

with a lost **Beagle puppy!** (How-)

Yesterday, ***Cherrychaser*** went looking for a pet. She returned with a small baby **Raccoon!**

Yesterday, ***Fallenpaw*** went looking for a pet. He returned with a baby **raccoon!**

- Pet Log Update! -

Bunnies are a Medicine Cats best friend. They are able to sniff out herbs and alert to when danger is near. If trained right, they even have a chance of helping a cat be healed by one more staged with only half the amount of herbs! However, since they don't eat meat, they have a chance of eating a few herbs.

Falcons are ideal hunting partners and patrol members. With a bird's eye view, they have a chance of spotting danger, and the patrol will be alerted before the next moon. However, they will be every New-Leaf to take care of their eggs and chicks. However, they only have a small chance of bringing back a chick as they are solitary animals.

Beagle puppies are good hunters and patrol members. They can smell danger, and will be decent fighters. However, if they have a taste of cat's blood, there is a chance they will turn on a cat and possibly kill it. If this happen two times, the Beagle has a larger chance of getting rabies. They automatically have 1/4 Scentingskills since they instinctively know what to do.

May StarClan have mercy on you all

⚠ Clan News ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

Ravenclaw has maxed out all his skills!

Kestrel-leaf is now a full Medicine Cat! We welcome him with open hearts and minds.

Sunwatcher is the newest Warrior! We welcome her with open hearts and minds.

Snakepaw is old enough to rank up! However, she must have at least two skills at level 2

Cloudpaw is old enough to rank up!

The Grace Period has ended! If you now leave to find a pet, there is a chance of you coming back hurt. The border will now begin to fall, events will happen, and more. Be careful out there!

Yesterday, ***Angeldream, Butterflywish, Snowowl, Sunwatcher, Cliffpaw,*** and ***Waspfrost*** went searching for pets! They returned with a ***Butterfly, Hummingbird, Screech Owl (how-), falcon, and falcon*** respectfully!

- Pet Log Update! -

Butterflies and **Hummingbirds** are a very sweet pets, who can help cats recover faster. If the cat has bright ginger colored fur, the **Hummingbird** has a chance of mistaking them as a flower, and might attack by accident. **Butterflies** can only live to be 10 moons, but their benefits are very helpful. They can help find cure pieces slightly easier, and already mastered their flying skills!

Screech Owls are night time hunters. Every night after they have their feathers and at least 1 + huntingskills, they can bring back more prey! Hard to find as most of the time, the parents will attack until the chicks are old enough to live. (Anyone else play Owlboy btw? If so, *is* Otus a screech owl? He kinda reminds me of one)

May StarClan have mercy on you all

⚠ Clan News ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

Cliffpaw ran away last night, and left no clues of returning. His pet raccoon must be adopted soon, or else it will run away.

Cypressash, Carnelianvine, and ***Ivytail*** have began coughing... if their users do not respond today, they will die.

Cloudpaw is now ***Cloudfluff,*** a full Medicine Cat! We welcome her with open hearts and minds.

A cure piece was found yesterday!

It is now the 5th moon. ***Angeldream*** must go to the Devine Skull tonight to speak with StarClan.

De apologizes for this being late and if stats aren't right. This was a rush job, but she'll try to have it straighten out later or tomorrow. She has multiple tests to be done before she can actually go on summer vacation, and thus takes time away. Yes she knows there are no tags, wattpad only let her put a few down.

May StarClan have mercy on you all

⚠ **Clan News** ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

Yesterday, ***Angeldream*** went to the Divine Skull. StarClan seems quiet for some odd reason...

Brokenheart went to look for a friend yesterday. She had came back, and is now moved to the Nursery.

Yesterday, a border patrol found strange scribbles in the ground, with an arrow pointing north. It looks like an invitation to someplace of some kind, as shiny stones were set next to the scribbles, one each for each cat. The Clan must decide on what to do...

Snakepaw is old enough to rank up, however, she doesn't have the skills. She must be level 2 in two different skills.

Owlpaw is old enough to rank up!

De is still trying to make sure everything is okay, stats wise. If you see something, please tell her or Leo so we can fix it.

We apologize for the late update! De and Leo went to an art camp, and De had more exams and tests to do.

May StarClan have mercy on you all

⚠ Clan News ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

Yesterday, ***Covepool*** and ***Carnelianvine*** went to looks for pets!

Covepool returned with a **Beagle** puppy!

Carnelianvine returned with a **Falcon** chick!

Brokenheart will have her kits next moon

Yesterday, a border patrol found strong scent of Twolegs. The shiny rocks are now gone, leading the cats to believe it was from them. The clan chose **correctly**.

Carnelianvine, Cypressash, and ***Ivytail*** have lost their coughs and are now healthy!

Yesterday, ***Cloudfluff*** went out to look a cure piece. She at first found nothing, but on the way back, she found half a piece. It seems like the lake they were originally looking at will no longer be available. ***Angeldream*** has come to the conclusion that the Medicine Cats will have to branch out where then look now.

To do this, a new command has been added. To look for a cure, use the command */look for cure at (location)*

Fill in location with one of the following:

Riverbank
Twisted Tree
Divine Skull Cave
The Sun Stone
Forest
Abandoned Twoleg Site (camping area)

Snakepaw is old enough to rank up!

Owlpaw is old enough to rank up!

De is still trying to make sure everything is okay, stats wise. If you see something, please tell her or Leo so we can fix it.

May StarClan have mercy on you all

⚠ **Clan News** ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

A flash flood is destroying the camp! Use the command */evacuate* to escape! Queens and Apprentice with 2 or lower skills will need help escaping!

Brokenheart is having her kits! A Medicine Cat must assist her or else a problem might accurate!

A new command has been added. To look for a cure, use the command */look for cure at (location)*

Fill in location with one of the following:

Riverbank
Twisted Tree
Divine Skull Cave
The Sun Stone
Forest
Abandoned Twoleg Site (camping area)

A new command has been added to the cats that own falcons. To train their flyingskills, you must use the command */train (pet)'s flyingskills at Twisted Tree*

This is the safest place to have them practicing flying. If you don't

put Twisted Tree at the end, they have a chance of getting injured.

Snakepaw ranked up and is now the newest warrior ***Snakefeather!*** We welcome her with open arms during these trying times.

Owlpaw is old enough to rank up!

Crashpaw is old enough to rank up!

Fallenpaw is old enough to rank up!

Banana has left Wattpad, someone from the Waiting list or even someone else can take over as one of their cats.

De is still trying to make sure everything is okay, stats wise. If you see something, please tell her or Leo so we can fix it.

May StarClan have mercy on you all

⚠ **Clan News** ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

Brokenheart gave birth to three healthy kits thanks to the aid of ***Butterflywish*** and ***Angeldream!***

Please welcome **Kit 1** (Sandleaf) **Kit 2** (beetlemaniac-) and **Kit 3** (coolwarriorcatsgirl)!

Don't forget to name the kits using */name kit _ to (new name)*

(To those on the waiting list who did the **main form,** you will be brought via event. From now on, please use the **waiting list** form found on the bottom of the sigh up page. Thank you!)

The camp was destroyed in the flood, new dens must be built to ensure cats have warm places to sleep. If not soon, cats will begin to fall ill.

A new command has been added. To look for a cure, use the command */look for cure at (location)*

Fill in location with one of the following:

Riverbank
Twisted Tree
Divine Skull Cave
The Sun Stone
Forest
Abandoned Twoleg Site (camping area)

A new command has been added to the cats that own falcons. To train their flyingskills, you must use the command */train (pet)'s flyingskills at Twisted Tree*

This is the safest place to have them practicing flying. If you don't put Twisted Tree at the end, they have a chance of getting injured.

Butterflywish, Devilfear, Ravenclaw, Fallenpaw, Snowowl, Sootfeather, Rookeye, Strikingpetal, Rainstrike, Crashpaw, Covepool, Cherrychaser, Ivytail, Whisperspark, Snakefeather, Tornwing and ***Cloudfluff*** escaped the flood safely!

Carnelianvine and ***Cypressash*** drowned in the flood.

While escaping, ***Waspfrost*** and ***Owlpaw*** were **injured!**

While escaping, ***Taloneye, Snowstar,*** and ***Angeldream*** were **slightly injured!**

Lostfoot is **severely injured!**

Snowstar, Cherrychaser, Angeldream, Sootfeather, Butterflywish, Cloudfluff, Kestrel-leaf, Owlpaw, Fallenpaw, Crashpaw, Snakefeather, Lostfoot, Rookeye and ***Taloneye*** are all hungry! (No effect)

Because of the flood, some of the herbs were washed away! **-13 herbs**

Owlpaw is old enough to rank up!

Crashpaw is old enough to rank up!

Fallenpaw is old enough to rank up!

Falcon 1 needs a new owner!

Kestrel-leaf will be played by Varulven15

Sunwatcher will be played by alumort

Owlpaw will be played by DogInATuxedo until kittycatsare_awsome comes back

⚠ **Clan News** ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

New dens must be built to ensure cats have warm places to sleep. If not soon, cats will begin to fall ill.

List of unbuilt dens

Leader's Den

Warrior's Den
Apprentice's Den
Medicine Cat Den
Quarantine Den

The **Nursery** was built yesterday! **-40** sticks

A new command has been added. To look for a cure, use the command */look for cure at (location)*

Fill in location with one of the following:

Riverbank
Twisted Tree
Divine Skull Cave
The Sun Stone
Forest
Abandoned Twoleg Site (camping area)

A new command has been added to the cats that own falcons. To train their flyingskills, you must use the command */train (pet)'s flyingskills at Twisted Tree*

This is the safest place to have them practicing flying. If you don't put Twisted Tree at the end, they have a chance of getting injured.

Snowstar, Taloneye, and ***Angeldream*** were healed yesterday and are now healthy!

Waspfrost and ***Owlpaw*** were healed yesterday and are now only **slightly injured!**

Lostfoot was healed yesterday and is now **injured!**

Owlpaw is old enough to rank up!

Crashpaw and ***Fallenpaw*** have ranked up and are now ***Crashwave*** and ***Fallenhope***! We welcome them with open arms during these trying times.

Owlpaw will be played by DogInATuxedo until kittycatsare_awsome comes back

De is still trying to make sure everything is okay, stats wise. If you see something, please tell her or Leo so we can fix it.

It was right when the sun was at its highest point did two cats sudden appear, almost as if they came out in a puff of smoke.

Well, not really, they just popped out for bushes which scared Brokenheart's kits.

Cherrychaser was the first cat to approach them, after the angry mother of course, but still.

"This is AltheaClan territory. Who are you and why are you here?" she ordered. Covepool and Ravenclaw joining her side as they formed are small barrier between the strangers and the rest for the clan.

"Now, now, no need to get your fur all in knots, sweetcheeks," spoke the first of the two. He was a tom, sandy pale ginger fur marked with tabby stripes. His eyes were a hazel color, a small ring of gold in them.

"Sweetcheeks?" Cherrychaser said in a stunned manner.

"Oh don't mind my dear Sandsie, he can be a bit silly. My name is Gray, and this is my wonderful husband Sand. We heard of a flood nearly destroying a camp and decided to come and make sure the cats in it were alright," spoke the second. She was a she-cat, with soft light gray fur with rounded ears and fur, gentle blue eyes, accented by her white muzzle, belly, and paws.

Covepool flicked his tail, eyes narrowed slightly. "You don't smell of any clan or kittypet. Are you loners?"

Sand smiled, nodding. "Yep! We're merchants actually. When me and Gray Darling heard of the clan and the flood, we decided to come help out by give you some supplies. For a price."

Pawsteps could be heard, the deputy turning and seeing her Leader and Lead Medicine Cat make their way to the visitors.

"So the rumors are true," Angeldream murmured.

"What do you want in return for supplies?" Snowstar asked calmly.

Sand chuckled, his tail twitching. "Do you know what Sand Medals are?" he asked, before shaking his head. "Of course not. Allow me to explain. Sand Medals are small golden, flat pieces of stone you can exchange with me to get supplies. Gray Darling does the same, but she takes something else."

"I take Gray Medals, small, flat silver pieces of stone. You can find both around Twoleg Places since they always carry and drop them."

"What's in it for us?" Poppyfrost asked, tilting his head slightly.

Gray smiled, swishing her fluffy tail. "Oh dear, I nearly forgot about that. Sandsie, can I explain?" she asked, looking over to the other.

"Of course, darling!"

"Alright. I will help you train your skills to the max, even your pets. I will also offer you services such as protection from any possible crimes a cat will do to you for two moons. My dear Sandsie likes to raise pets, so if you wish to breed two pets, he'll make sure they have good health and good stats. He will also sell you sticks, herbs, and prey."

"What's breeding?" Fallenkit asked innocently.

"You see, when two cats love each other verrry much- or in my case get high on catmint-" Brokenheart was stopped by Devilfear.

"You still can't be near our camp. Not with this illness around," he said, voice low in a threatening tone.

Gray smiled again, not bothered by the warrior.

"Actually, me and my darling Sandsie can't get sick. There, situation solved! Now, if you go looking for those Medals, we'll be able to sell you things. We'll be waiting by the abandoned Twoleg Site. We hope to see you soon!"

⚠ **Clan News** ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

New dens must be built to ensure cats have warm places to sleep. If not soon, cats will begin to fall ill.

List of unbuilt dens

Leader's Den

Warrior's Den
Apprentice's Den
Medicine Cat Den
Quarantine Den

A new command has been added. To look for a cure, use the command */look for cure at (location)*

Fill in location with one of the following:

Riverbank
Twisted Tree
Divine Skull Cave
The Sun Stone
Forest
Abandoned Twoleg Site (camping area)

A new command has been added to the cats that own falcons. To train their flyingskills, you must use the command */train (pet)'s flyingskills at Twisted Tree*

This is the safest place to have them practicing flying. If you don't put Twisted Tree at the end, they have a chance of getting injured.

Cherrychaser and ***Waspfrost*** can now be mates!

Waspfrost and ***Owlpaw*** were healed yesterday and are now healthy!

Lostfoot was healed yesterday and is now **slightly injured!**

Owlpaw is old enough to rank up!

Owlpaw will be played by DogInATuxedo until kittycatsare_awsome comes back

Last moon, a cat was randomly selected to have **Bloodcough**

Because of dens not being built, ***Snowstar, Ravenclaw, Butterflywish, Waspfrost,*** and ***Devilfear*** have gained a **slight fever**. They could potentially have **Bloodcough.** Medicine Cats must use */observe* (cat) to make sure they are alright.

Snowstar, Owlpaw, and ***Cherrychaser*** are hungry! (no effect)

De is still trying to make sure everything is okay, stats wise. If you see something, please tell her or Leo so we can fix it.

⚠ **Clan News** ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

New dens must be built to ensure cats have warm places to sleep. If not soon, cats will begin to fall ill.

List of unbuilt dens

Warrior's Den
Apprentice's Den
Medicine Cat Den
Quarantine Den

Please look at charts to see the amount of sticks needed for dens

A new command has been added. To look for a cure, use the command */look for cure at (location)*

Fill in location with one of the following:

Riverbank
Twisted Tree
Divine Skull Cave
The Sun Stone
Forest
Abandoned Twoleg Site (camping area)

A new command has been added to the cats that own falcons. To train their flyingskills, you must use the command */train (pet)'s flyingskills at Twisted Tree*

This is the safest place to have them practicing flying. If you don't put Twisted Tree at the end, they have a chance of getting injured.

Cherrychaser and ***Waspfrost*** can now be mates!

Lostfoot died because of inactivity

Owlpaw is old enough to rank up!

Owlpaw will be played by DogInATuxedo until kittycatsare_awsome comes back

De is an idiot and forgot that bunnies eat herbs. **-8 herbs.**

The other day, ***Kestrel-leaf*** went searching for a pet. He returned with a baby **bunny!**

Forgot to say a few things the other day so here it is

Since Silverpath is now 10 moons old, he has gained an extra energy!

Kits and their mother already have max relationship

De is still trying to make sure everything is okay, stats wise. If you see something, please tell her or Leo so we can fix it.

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

New dens must be built to ensure cats have warm places to sleep. If not soon, cats will begin to fall ill.

List of unbuilt dens

Apprentice's Den
Medicine Cat Den
Quarantine Den

Please look at charts to see the amount of sticks needed for dens

A new command has been added. To look for a cure, use the command */look for cure at (location)*

Fill in location with one of the following:

Riverbank
Twisted Tree
Divine Skull Cave
The Sun Stone
Forest
Abandoned Twoleg Site (camping area)

A new command has been added to the cats that own falcons. To train their flyingskills, you must use the command */train (pet)'s flyingskills at Twisted Tree*

Cherrychaser and ***Waspfrost*** can now be mates!

Snowstar, Butterflywish, and ***Ravenclaw*** are now healthy!

Owlpaw is old enough to rank up!

Owlpaw will be played by DogInATuxedo until kittycatsare_awsome comes back

Since **Cloverwish, Cottonheart, Cloudfeather, Vanilla, Bandit, Littlepea** are now 10 moons old, they have gained an extra energy!

All **Falcons** over 7 moons old have left the take care of their future families. Don't worry owners! They will come back the start of Green-Leaf with a slim chance of bringing back chicks!

Kits and their mother already have max relationship

In memory of De's dog that pasted away, there will now be a +2 hunting, +1 foraging, 1 extra energy for all cats besides Kits.

Brokenheart's kits are now four moons old, meaning she has regained 1 energy.

The infected cat has been found... ***Devilfear*** has been tested positive for Bloodcough.

De is still trying to make sure everything is okay, stats wise. If you see something, please tell her or Leo so we can fix it.

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

~

A pack of dogs are attacking the camp! Use */defend* to attack them if you are high enough leveled, or */hide* if you are already injured

or underleveled.

New dens must be built to ensure cats have warm places to sleep. If not soon, cats will begin to fall ill.

List of unbuilt dens

Apprentice's Den

Please look at charts to see the amount of sticks needed for dens

Angeldream must head to Divine Skull Cave this moon.

Owlpaw has ranked up to a fully name warrior! He is now ***Owlblaze.*** We welcome him with open arms during these trying times.

Fallenkit, Missingkit, and ***Deadkit*** are old enough to rank up to warrior or medicine cat apprentices!

A new command has been added. To look for a cure, use the command */look for cure at (location)*

Please remember that only Medicine Cats and those who volunteered to be helpers can collect cure peices.

Fill in location with one of the following:

Riverbank
Twisted Tree
Divine Skull Cave
The Sun Stone
Forest
Abandoned Twoleg Site (camping area)

A new command has been added to the cats that own falcons. To train their flyingskills, you must use the command */train (pet)'s flyingskills at Twisted Tree*

Cherrychaser and ***Waspfrost*** can now be mates!

All **Falcons** have come back from nesting.

Cloudrunner brought back a **baby Falcon**! Sunwatcher must figure out what to do with them.

Since **Survivor** now has 2.5 Obedienceskills, ***Ravenclaw*** is their new owner

Kits and their mother already have max relationship

De is still trying to make sure everything is okay, stats wise. If you see something, please tell her or Leo so we can fix it.

Hey guys, De here. I just wanted to tell you all that since now my mom has her business open, I might not be on as much as I use to be. I might

be off weekends, but nothing is for certain.

May StarClan have mercy on you all

⚠ Clan News ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

~

The dogs were defeated! The clan has successfully captured Chris.

Rainstrike and ***Covepool*** are now injured!

Ravenclaw is now Slightly Injured with a Broken Bone!

Snowstar, Cherrychaser, and ***Missingpaw*** are hungry!

Devilfear passed away last night. May he find peace in StarClan

Angeldream went to the Devine Skull last moon. StarClan has gifted her a full cure peice as a gift to the clan for defeating the dogs.

New dens must be built to ensure cats have warm places to sleep. If not soon, cats will begin to fall ill.

List of unbuilt dens

Apprentice's Den

Please look at charts to see the amount of sticks needed for dens

Deadkit are old enough to rank up to warrior or medicine cat apprentices!

Fallenkit ranked up to Medicine Cat Apprentice! His mentor will be ***Cloudfluff***!

Missingpaw ranked up to Apprentice! Her mentor will be ***Rainstrike***!

A new command has been added. To look for a cure, use the command */look for cure at (location)*

Please remember that only Medicine Cats and those who volunteered to be helpers can collect cure peices.

Fill in location with one of the following:

Riverbank
Twisted Tree

Divine Skull Cave
The Sun Stone
Forest
Abandoned Twoleg Site (camping area)

Cherrychaser and ***Waspfrost*** can now be mates!

Cloudfluff and ***Rainstrike*** can now be mates!

Kits and their mother already have max relationship

De is still trying to make sure everything is okay, stats wise. If you see something, please tell her or Leo so we can fix it.

Hey guys, De here. I just wanted to tell you all that since now my mom has her business open, I might not be on as much as I use to be. I might be off weekends, but nothing is for certain.

May StarClan have mercy on you all

⚠ Clan News ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

~

Rainstrike and ***Covepool*** are injured! If not healed this moon, they will get an **infection.**

Ravenclaw is now healthy! He will stay one moon in the Medicine Cat Den to recover from his broken bone.

Chris is **severely injured**, if not healed this moon, he will get an **infection.**

Sootfeather and ***Cloudfluff*** have lost their coughs!

Deadkit has ranked up to ***Deadpaw!*** Her mentor will be ***Cherrychaser.***

Snowstar's health is starting to go down due to age. ***Cherrychaser*** must be ready to receive her nine lives next moon.

New dens must be built to ensure cats have warm places to sleep. If not soon, cats will begin to fall ill.

List of unbuilt dens

The clearing was quiet, the Nursery now vacant of its previous inhabitants. Fallenpaw was with Butterflywish, hoping to help her find any piece of the cure.

He wasn't sure what *the cure* was, just knew that Cloverwish and Littlepea were ready to defend a small, nearly useless pile of herbs with their lives.

"Hey, Butterflywish, when Cloudfluff gets over her cough, do you think she'll let me get a pet or something?" he asked, looking over to the she-cat.

The white yellow-spotted she-cat blinked at him. "I'm sure she will, but I think right now you should focus on your training then getting a Hummingbird or Bunny."

"I think we can help with that."

Fallenpaw let out a small surprised yowl, looking over. Out from the bushes stepped Sand and Gray, a somewhat forced smile on their muzzles.

"Sorry we scared you," Gray meowed, her voice overly sweet as her tail flicked behind her.

"We were hoping to speak with the Clan. Me and Gray have something to hopefully get business going good for us," Sand explained. The medical cats looked to one another before nodding.

***

Cherrychaser and Strikingpetal were first on on the scene when the merchants were brought it. The Deputy watching them carefully.

From the corner of her green eyes, she saw Snowstar slowly stumble to them. She was definitely old, 195 moons (16 years) yet she was still somehow kicking.

"Sand, Gray, state your business," she said, voice so soft Cherrychaser swore she almost missed it.

The sandy ginger tabby smile, tail flicking. "Well, we haven't gotten business yet. Me and Gray had a talk and have decided we're gonna let everyone have a 50% discount. It's only gonna go on until Leaf-Bare though. We gotta have some kinda outcome too."

Cherrychaser's brows knitted. Why were they...? Her eyes widen. She remembered seeing a few unholy options the cats before her offered: murder, poisoning prey, cure destruction.

She had a bad feeling, and only prayed that StarClan there was no traitors living along side her...

~

While in patrol, ***Strikingpetal*** found an unusual scent.

De is still trying to make sure everything is okay, stats wise. If you see something, please tell her or Leo so we can fix it.

Hey guys, De here. I just wanted to tell you all that since now my mom has her business open, I might not be on as much as I use to be. I might be off weekends, but nothing is for certain.

May StarClan have mercy on you all

⚠ Clan News ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

~

Rainstrike and ***Covepool*** are **injured!** They have gained an **infection** due to not being treated.

Ravenclaw is **Slightly Injured** with a **Broken Bone!** He has gainer an **infection** due to not being treated.

Chris is **severely injured**, and gained an **infection** due to not being treated.

Snowstar has passed away from old age. ***Cherrychaser*** must go and receive her nine lives at the Divine Skull.

Cherrychaser, Missingpaw, and ***Owlblaze*** are **starving!** If not fed they will die.

Deadpaw, Fallenhope, Crashwave, Rookeye, Snakefeather, and ***Sunwatcher*** are *hungry!*

New dens must be built to ensure cats have warm places to sleep. If not soon, cats will begin to fall ill.

List of unbuilt dens

Apprentice's Den

Please look at charts to see the amount of sticks needed for dens

A new command has been added. To look for a cure, use the command */look for cure at (location)*

Please remember that only Medicine Cats and those who volunteered to be helpers can collect cure peices.

Fill in location with one of the following:

Riverbank
Twisted Tree
Divine Skull Cave
The Sun Stone
Forest
Abandoned Twoleg Site (camping area)

Cloudfluff and ***Rainstrike*** are now mates! May their marriage be long and wonderful.

Owlblaze needs a new permanent owner

Kits and their mother already have max relationship

De is still trying to make sure everything is okay, stats wise. If you see something, please tell her or Leo so we can fix it.

To collect Sand Medals (which can only be done once a day) use / look for Sand Medals.

To collect Gray Medals (which can only be done once a day) use / look for Gray Medals.

Hey guys, De here. I just wanted to tell you all that since now my mom has her business open, I might not be on as much as I use to be. I might be off weekends, but nothing is for certain.

School has started for De and Leo, so just like with the job notice, don't expect back to back updates.

To top everything off, De has another Command Game up, so if you're interested in join, please do! It's called No More and is about a Clan having to show they aren't evil to the goodie-to-shoes Clans.

May StarClan have mercy on you all

⚠ **Clan News** ⚠

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

~

Rainstrike and ***Covepool*** were healed yesterday and are now only **slightly injured**! Their **infection** has subside as well thanks to

Cloverwish's Healing perk, with an added bonus of half the amount of herbs needed!

Ravenclaw was healed yesterday! He has to rest of the day to make sure his shoulder is fine.

Chris was healed yesterday, and now only **Severely injured.** Thanks to Littlepea's Comfort perk, he now only needs to be healed once this moon before becoming fully healthy.

The **Apprentice's Den** was built!

A new command has been added. To look for a cure, use the command */look for cure at (location)*

Please remember that only Medicine Cats and those who volunteered to be helpers can collect cure peices.

Fill in location with one of the following:

Riverbank
Twisted Tree
Divine Skull Cave
The Sun Stone
Forest
Abandoned Twoleg Site (camping area)

Owlblaze's new player is DogInATuxedo

Kits and their mother already have max relationship

De is still trying to make sure everything is okay, stats wise. If you see something, please tell her or Leo so we can fix it.

To collect Sand Medals (which can only be done once a day) use / look for Sand Medals.

To collect Gray Medals (which can only be done once a day) use / look for Gray Medals.

Last day of the Merchant Discount!

Hey guys, De here. I just wanted to tell you all that since now my mom has her business open, I might not be on as much as I use to be. I might be off weekends, but nothing is for certain.

School has started for De and Leo, so just like with the job notice, don't expect back to back updates.

To top everything off, De has another Command Game up, so if you're interested in join, please do! It's called No More and is about a Clan having to show they aren't evil to the goodie-to-shoes Clans.

May StarClan have mercy on you all

There is now an activity check! Please respond to it. After 2 moons of you not responding to it, your cat will get Bloodcough and die.

~

The moment the first snow came down from the sky was the moment Angeldream knew something was coming. The herb pile

was empty, herbs were scarce, and cure peices were becoming harder to find.

The white molly ran her paw along the sandy ground underneath her, a small goove now imprinted.

She looked up, hearing the sound of wing beats. The patrol was back, Cloudheart with them. The beautifully russet-tawny landing on the ground with ease.

Strikingpetal came to his pet's side, noticing her nervous and anxious look. His tail and ears twitched and flicked, asking the hawk what was wrong.

"Cats! I saw cats, many of them. A small group even! They were heading this way, I think they might be planning to attack the clan," the falcon fretted, ruffling her feathers.

"What?" Covepool muttered, coming to the two.

Angeldream looked to Butterflywish and Sootfeather behind her. An attack? This wasn't good...

~

Rainstrike and ***Covepool*** were healed yesterday and are now healthy.

Chris was healed yesterday and is fully healthy.

Hey guys, De here. I just wanted to tell you all that since now my mom has her business open, I might not be on as much as I use to be. I might be off weekends, but nothing is for certain.

School has started for De and Leo, so just like with the job notice, don't expect back to back updates.

To top everything off, De has another Command Game up, so if you're interested in join, please do! It's called No More and is about a Clan having to show they aren't evil to the goodie-to-shoes Clans.

May StarClan have mercy on you all

Missingpaw, Fallenpaw, and ***Deadpaw*** are old enough to become fully named Warriors and Medicine Cat! However, due to low skill levels, only ***Deadpaw*** may rank up.

Now ten moons old, **Thumper** has gained another energy!

Cherrystar has chosen her deputy. ***Ivytail*** has been chosen.

(Note for future deputy voting, please read! I never got the chance to say this, but unless the leader speaks or ranks up a warrior to deputy, please wait for me to tag everyone so they can all vote. I'm so so sorry, and will try to put everything together from here on out)

A new command has been added. To look for a cure, use the command /look for cure at (location)

Please remember that only Medicine Cats and those who volunteered to be helpers can collect cure peices.

Fill in location with one of the following:

Riverbank
Twisted Tree
Divine Skull Cave
The Sun Stone
Forest
Abandoned Twoleg Site (camping area)
